INDEX

S.No.	Date	Name of the Experiment	Page No.	Marks	Staff Signature
1a.	24-09-2024	Basic Harware Devices(Input/Outpu/Processing Device)			
1b.	24-09-2024	Dismantling of PC			
1c.	24-09-2024	Identification of components in North and South Bridge of Motherboard			
1d.	28-09-2024	Preparing cheat sheet for the major components in the PC			
2a.	01-10-2024	Assembling of External Peripherals with Motherboard			
2b.	08-10-2024	Discovering the different cables used for a PC connection			
3a.	15-10-2024	Installing operating systems and device drivers			
3b.	15-10-2024	Bare metal installation of any one of the Windows and Linux flavor			
3c.	15-10-2024	Installation of Dual booting of OS			
3d.	22-10-2024	VM Machine installation			
3e.	22-10-2024	OS installation in VM Machine			
4a.	29-10-2024	Study of hardware devices used in networks			
4b.	29-10-2024	Exploring the usage of utp, optical fibers in networking			
4c.	05-11-2024	Crimping of the RJ45 jack with UTP			
4d.	12-11-2024	Testing the connectivity using Tester tool			
5a.	19-11-2024	Installation of network drivers in Linux and Windows			
5b.	19-11-2024	Exploring LAN topology			
5c.	19-11-2024	Configuring IPV4 address on PC'S for connection establishment			
6a.	17-12-2024	Firewall and explore the security measures used in firewall's			
6b.	17-12-2024	Server and classify the server platforms like file server, proxy server,web server			
6c.	17-12-2024	Study of awareness of cyber threats and explore the usage of backup and recovery tools
